Philadelphia Insurance Companies Offers Online Tool to Build Custom Risk Management Plan

Cloud portal helps create custom plan and policies for non-profit and for-profit organizations.

BALA CYNWYD, PA, July 13, 2015— Philadelphia Insurance Companies (PHLY) introduces the *PHLY Risk Management Portal*, a website offering access to three powerful risk cloud applications for non-profit and for-profit policyholders. The *PHLY Risk Management Portal* is powered by the [Nonprofit Risk Management Center \(NRMCC\)](#).

The *PHLY Risk Management Portal* is easily accessible after logging into [MyPHLY](#). It's a complimentary service for PHLY insureds valued at \$320. The portal provides access to three unique cloud applications:

- My Risk Assessment evaluates risk through a self-evaluation that addresses employment practices, contracts, special events, harm to clients, and other issues.
- My Risk Management Plan looks at financial management, client safety, governance, and more to create a risk management plan. Users can upload a current plan, select from samples, or draft their own.
- My Risk Management Policies helps users create custom policies using a simple, step-by-step process that features over 150 templates.

“Non-profit organizations have unique risks and the new *Risk Management Portal* is specifically designed to help identify and create risk management practices around those exposures,” shared Mark Konchan, vice president of risk management services at Philadelphia Insurance Companies. “This is a tremendous tool for organizations, allowing them to focus their resources on the programs and people they serve.”

“We are delighted to partner with PHL Y to offer our cloud applications at no cost to PHL Y policyholders,” notes Melanie Herman, executive director of the Nonprofit Risk Management Center. “The launch of the PHL Y Risk Portal is a testament to the company’s commitment to sponsor the development of innovative, user-friendly risk resources.”

All documents including assessments, plans, and policies may be downloaded or viewed virtually. For more information on the *PHLY Risk Management Portal*, visit our website [here](#).
