

# LOSS CONTROL

## STEPS FOR GENERAL FLOOR CLEANING

Floor cleaning procedures vary by the type of product, so check the manufacturer's guidelines first.

Steps for removing dirt and spills include:

- Pour the recommended amount of cleansing product into a bucket or other container
- Mix with warm water
- Block any floor drains so that cleansing product does not drain prior to taking effect
- Apply mixture to a mop and spread consistently on the floor
- Wait approximately 10 minutes to allow cleansing product enough time to react with the spill
- Unblock floor drains and scrub extremely dirty spots with a hard brush
- Rinse the floor with clean warm water so as not to leave any deposits of cleansing product
- Repeat as needed

**IMPORTANT NOTICE** - The information and suggestions presented by Philadelphia Indemnity Insurance Company in this e-brochure is for your consideration in your loss prevention efforts. They are not intended to be complete or definitive in identifying all hazards associated with your business, preventing workplace accidents, or complying with any safety related, or other, laws or regulations. You are encouraged to alter them to fit the specific hazards of your business and to have your legal counsel review all of your plans and company policies.

Philadelphia Insurance Companies is the marketing name for the insurance company subsidiaries of the Philadelphia Consolidated Holding Corp., a Member of the Tokio Marine Group. Coverage(s) described may not be available in all states and are subject to Underwriting and certain coverage(s) may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds and insureds are therefore not protected by such funds.
